

# SEI Reports for P&T Dossiers

---

June 17, 2025

There are three ways to access your current reports:

1. An email with a link to view your reports will be sent when the reports available (if you've taught in the current semester).
2. In the SEI Center in Carmen.
3. [Access Blue](#).

## Types of Reports (see attached samples)

### 1. Cumulative Fixed-Response Survey Data

#### **SEI Cumulative Report (Blue): Use for RPT Interfolio Cumulative Fixed-Response Survey Data section for Summer 2018 onward**

This report contains responses for all classes from Summer Term 2018 and later.

1. Mean scores for each question for each class in order by term.
2. Number of responses, class size, and university comparisons by class size.

For classes prior to Summer Term 2018, cumulative reports are still available in the Faculty Center. See **SEI Reports for prior terms** below.

### 2. Fixed-Response Student Evaluation Data

#### **SEI Overview Report (Blue): Use for RPT Interfolio Fixed-Response Student Evaluation Data section for Summer 2018 onward**

This one-page report is similar to the SEI Individual Class Report with a few changes:

1. Combined class reports now list all class information
2. Frequency Analysis: All SEI questions
3. Score Analysis table of your responses compared to the department, college and university

## **REPORTS FOR INSTRUCTOR USE ONLY:**

### **SEI Class Detail Report (Blue): Do NOT use for P&T dossiers!**

This multi-page report contains the information from the Overview Report along with additional data:

1. Response rate.
2. Frequency Analysis: All SEI questions, grouped by key elements of teaching.
3. Score Analysis:
  - Bar graph display of your responses compared to the department, and to same size classes in your college and the university.
  - Table containing the same comparisons including Standard Deviations.
4. Enrollment Reason: A breakdown of why students enrolled in this class. Old reports only listed the predominant reason students enrolled.
5. Comments: if enabled, now appear within the report. No more matching them up yourself.

### **SEI Instructor Summary Report (Blue): Do NOT use for P&T dossiers!**

All of your classes for a single term in [one report](#).

1. Combined response rate.
2. Frequency Analysis for all classes organized around the three key elements of teaching:
  - Overall analysis for all classes combined.
  - Each class listed separately giving a breakdown of combined class results.
3. Score Analysis for all classes combined:
  - Bar graph display of your overall responses compared to the department, your college and the university.
  - Since you might be teaching classes of different sizes, the college and university comparisons are not based on size like they are on the individual class reports.
  - Table containing the same comparisons including Standard Deviations.
4. Question Rankings - the three highest and three lowest rated items from all SEI responses.
5. Enrollment Reason - breakdown of what reasons students gave each semester for taking your classes.

### **Historical Data Report (Blue): Do NOT use for P&T dossiers!**

This report contains information from Summer 2009 through Spring 2018.

1. Question 10 results for all classes.
2. Frequency Analysis for each question for each class.
3. Comparison Scores - the results for each question for the university, and the college and/or department, if available.
4. Question Rankings - the three highest and three lowest rated items from all SEI responses.
5. Enrollment Reason - breakdown of what reasons students gave each semester for taking your classes.

See the [Registrar's SEI Reports](#) page for more information.
